## WINDMILL CENTER VISITS NEW WALMART

Participants of the Windmill Center recently visited the new Walmart store in Bayonne, as part of the Center's community outreach and activities of daily living opportunities. Shopping at Walmart was fun, but it was also educational. The participants practiced appropriate behaviors while shopping, and also learned about budgeting, unit cost comparison, and monetary units. The Center participants also thanked the Walmart management in person for the recent Walmart donation to the Windmill Alliance, Inc.

The Windmill Center, which is one program of the Windmill Alliance, Inc. in Bayonne, offers adult day training services to nearly 50 developmentally disabled participants each day. The Center program includes menu planning and meal preparation training, job training and industry, counseling and life planning, and life skills training.

Other programs of the Windmill Alliance, Inc. include the Supervised Apartments, which is a residential program for adults with disabilities, and H.I.G.H.W.A.Y.S., the thrift store, emergency food pantry and job training and counseling program.

For more information about the Windmill Alliance, Inc., please call 201-858-4460 or [www.windmillalliance.org](http://www.windmillalliance.org) (new website is under construction).
